

Ask Gladys, She Knows

Dear Gladys,

As the weather heats up, I keep burning my hands taking in the trash (hot handles); I'm over 70 and my skin is thin. What can I do?

Hot Hands

Dear Hot,

Buy a swimming noodle. Cut it to the size of your trash handles, then long ways on bottom. Slip it over trash handle and, *voila!* No more hot hands! If you wish, tape the bottom to secure.

Dear Gladys,

I like to attend the BoD meetings BUT I don't like the way some folks pick on others, especially our resident manager. He is a good man who works hard for our community and he and his team just won an award for service. What can we do?

Concerned Senior

Dear Concerned,

Remind the complainer the CM has many things to do we don't even know about. Be sure to tell the CM you like his work. He is doing a great job!

Dear Gladys,

I don't understand. If our young people can fight in a war at 18 to protect us, why are 19 year olds restricted to swimming in our pool from 3-5 with the children? Doesn't make sense.

Perplexed

Dear Perplexed,

I feel your frustration. Perhaps you might ask the BoD if they can amend the rules.

Dear Gladys,

How come the newsletter doesn't take a stand on important community issues?

Equal Opportunist

Dear Equal,

At the bottom of page 3, there is a disclaimer in which it states, "the newsletter is for entertainment value only". Getting involved in the running of the community is up to the BoD, the CM, and FSR. It is outside our wheelhouse. We support Judy and the people we chose to be our elected officers to explore and make the right decisions. It's equality.
